

Periodic Health Exam (PHA) OVER 50

NOTE: The new annual PHA replaces the 5-year periodic physical examination, but does not replace the need for specialty physical examinations required for military school attendance and other unique military programs.

INSTRUCTIONS

All of the following must be completed prior to booking the actual PART 2 physical.

****TO ENSURE COMPLETION, CHECK OFF EACH BOX BELOW PRIOR TO SCHEDULING PART 2.**

☐ Complete part I of the PHA online through AKO:

- Once you have logged on to AKO, click on "My Medical Readiness Status" on the right hand side of the page, or choose "My Medical Readiness" from the drop down menu of the "Self Service" tab at the top of the page.
- On the left hand side of the My Medical Readiness page, you will see a section titled "Periodic Health Assessment (PHA)". You may have to scroll over the box to open this section. In the accompanying text, there is a link to the "Periodic Health Assessment". Clicking on this link will send you to the MEDPROS "Medical Health Assessments" (MHA) page. On the right hand side, click where indicated to begin a new form.
- Follow the instructions to complete the assessment. You must complete all sections. Once you have finished, the MEDPROS MHA page will show a new PHA form in the list on the left hand side. The status must read as "member portion complete" before you can schedule your Part II appointment.
- Print a screen shot of the MEDPROS web page showing your Part I survey in "Member portion complete" status. You may do so by clicking on the printer icon at the top of the frame. You must bring this page in with your packet to schedule your Part II appointment.

☐ Vision:

- Screening will be completed the day of appointment. **REMOVE CONTACTS 24 HOURS PRIOR TO EXAM.** (Bring glasses to your appointment). No exam is needed before your Part II appointment. If you need glasses, gas mask inserts, or military combat eye protection inserts, you must make an appointment with Optometry at Kenner Army Health Clinic for a current exam and for ordering these items.

☐ Hearing exam:

- You must have a completed hearing exam within one year prior to your PHA (to include follow up exams if instructed). You may print out your most recent exam results by going to the "My

Medical Readiness" page on AKO and clicking on the "View Detailed Information" link under the Hearing Readiness section. This will take you to your Medical Readiness Profile in MEDPROS. Click on the link to your Hearing Record form to bring up a copy of your most recent exam results. Print a copy of this page to add to your packet. NOTE: The Medical Readiness status indicator for hearing is out of date in AKO. It may indicate that you are current (or green), but you MUST have completed an exam within the prior year to complete your PHA.

- If you have not had a hearing exam within the last year, you may walk in to the Active Duty Clinic to have one completed (No appointment needed). Fill out the "Hearing Test Data" sheet in your PHA packet prior to your appointment. Walk-in hours are Mon-Fri from 0700-1130hrs and 1300-1530hrs during days the clinic is open. You will need to bring a printed copy of your exam in with your packet in order to schedule your Part II appointment.

☐ HIV:

- You need to have completed a HIV lab draw within two years prior to your PHA. If you are not current, you may report to the lab at Kenner Army Health Clinic any time during normal business hours to have this lab drawn. You do not need to have orders placed prior to reporting to the lab. The lab will give you a paper indicating that your HIV lab has been drawn. Bring this in with the rest of your packet.

☐ Immunizations:

- You must be current on all your required immunizations prior to completing your PHA. If you are green for immunizations on the My Medical Readiness page, you do not need take further action. If you are red, you can view your detailed immunization profile by clicking on the "View Detailed Information" link, which will send you to your MEDPROS Medical Readiness Profile page. Click on the "Immunization Profile" link and you will see a list of all required immunizations and your current status. If you require Hepatitis A (HEP A), Hepatitis B (HEP B), or Tetanus-Diphtheria-Pertussis vaccinations, please contact the Active Duty Clinic and they will instruct you on how to proceed. If you are not current for MMR and/or Varicella, you will need to have blood drawn to check if you need a vaccination. You may report to the lab at Kenner Army Health Clinic any time during normal business hours to have this lab drawn. You do not need to have orders placed prior to reporting to the lab. The lab will give you a paper indicating that this lab has been drawn, bring this in with the rest of your packet.

☐ Fasting Labs/Chest X-Ray

- You must complete a set of fasting labs prior to scheduling Part 2 of the PHA. Fasting must occur for 12 hours prior to the lab draw (you may have water). You may report to lab at Kenner Army Health Clinic any time during normal business hours to have this lab drawn. You do not need to have orders placed prior to reporting to the lab. You must inform the lab that you require the "lab set for an over 50 PHA", which includes occult sample cards that will have to be completed at home. The lab will stamp your packet with "labs drawn" **ONLY** after you have submitted your completed occult sample cards. You will be provided detailed information from the lab on the entire process.

- Chest X-Ray must be completed **AFTER** your fasting labs have been drawn. You may report to Kenner Army Health Clinic (Radiology) any time during normal business hours to have this X-Ray completed. Radiology will stamp your packet indicating that the X-Ray has been completed.

☐ DNA/G6PD

- If your Medical Readiness Status on the My Medical Readiness page indicates that you do not have DNA or G6PD on file, report to the laboratory at Kenner Army Health clinic for a records check and DNA or G6PD sampling if necessary. The lab will provide you with a paper to indicate that you are up to date or have had a sample taken.

☐ Individual Medical Readiness:

- Once you are current/green for DNA, G6PD, HIV, Immunizations, Vision equipment (not exam), and Hearing or you have taken the proper corrective action indicated above, print a copy of your Medical Readiness Status by clicking on the "Print" link at the top of the Medical Readiness Column on the right hand side of the My Medical Readiness page. You must bring a copy of this print out with your packet when you come in to schedule your Part II appointment. If corrective action was necessary, bring in the proper documentation as well.

☐ Fill out boxes (1-8) on the PHA checklist, included with your PHA packet.

☐ Complete the Tuberculosis (TB) survey included in your PHA packet and put your identifying information in bottom left "Patient's Identification" box.

☐ Bring a copy of any permanent profiles and/or temporary profiles greater than 30 days. You may find copies of your profiles by going to <https://medpros.mods.army.mil/eprofile/public/ako/default.aspx>.

ONCE ALL THE ABOVE IS COMPLETE, RETURN TO THE ACTIVE DUTY CLINIC WITH YOUR COMPLETED PACKET TO SCHEDULE YOUR PART 2 MON THRU FRIDAY AT 0700-1130, 1300-1500.
